BODY MEASUREMENTS GUIDE

A few instructions before you can begin:

1

Grab a friend, a sewing/tailor tape measure, and use this PDF and this **video** to complete your measurements.

Do not take this to a tailor, and do not go to Men's Wearhouse for your measurements. For best results follow the directions and measure at home.

2

When taking measurements make sure to stand exactly as you normally would. Do not stand up any extra straight, puff anything out, or suck anything in! if you do so, you run the risk of your suit not fitting properly.

3

Measure everything snug, but never too tight where you feel it pinching or pulling you.

4

All measurements need to be in inches. Very important.

Just relax, and we'll make you your best suit ever!

Neck

Measure the circumference of your neck about 1 inch above the highest point of your shoulders. This should be around where your shirt collar normally sits.

My measure (In): _____

Shoulder Width

Find edge of the shoulder bones and measure the exact width from left shoulder bone to right shoulder bone across the back.

My measure (In): _____

Biceps

Measure around the fullest part of your bicep. Make sure it is snug leaving room for 1 finger.

My measure (In): _____

Jacket Length

Measure from the highest point of your shoulder to the end of the thumb.

My measure (In): _____

*Pro Tip- If you have a belly, make sure to bring the tape measure over the belly so your jacket is long enough to cover the extra surface area

Sleeve Length

Measure the exact size from the shoulder bone to the end of the wrist.

My measure (In): _____

Chest Circumference

Pull the measuring tape level across the back to the front of the chest across the widest part, usually at the nipples. Make sure it is not too tight. Do not puff out your chest.

My measure (In): _____

Stomach Circumference

Relax your stomach and measure around the fullest part, which is usually found around the belly button.

My measure (In): _____

Pants Waist Circumference

Relax your stomach measure the circumference at the top of waistband. Make sure the tape snug and level, but not too tight.

My measure (In): _____

This measurement should be about 2-3.5 inches bigger than your standard pants waist.

Hips Circumference

Measure the circumference of the hips around the fullest part. Make sure the tape snug and level, but not too tight.

My measure (In): _____

Pants Length

With your shoes off, measure from the top of the waistband to the ground.

My measure (In): _____

Crotch

Measure from top of front waistband at your belt to top of back waistband, along the shape of Crotch. Make sure it is not too tight.

My measure (In): _____

Thigh Circumference

Measure the circumference below the crotch. Make sure it is snug and level, but not too tight.

My measure (In): _____

Knee Circumference

Measure the circumference of the knee at its widest part. Make sure it is snug and level but not too tight.

My measure (In): _____

Thanks for taking the time to do this, now that you've done your part, we'll make sure to deliver

YOUR BEST SUIT EVER!
